

Technical drawing of a DN 300 Stz pipe section showing three different spacing configurations:

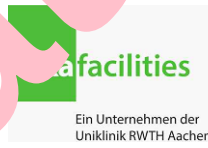

- Three segments of 30 mm each.
- Two segments of 45 mm each.
- One segment of 90 mm.

The technical drawing illustrates a drainage system. The top part is a cross-section showing a concrete structure with a drainage channel. A red circle highlights a specific area. The bottom part is a plan view showing the layout of the drainage system. The plan view includes dimensions for the drainage channel (1,19) and the spacing between the channels (30, 30, 30, 90). The cross-section shows a concrete structure with a drainage channel. A red circle highlights a specific area. The bottom part is a plan view showing the layout of the drainage system. The plan view includes dimensions for the drainage channel (1,19) and the spacing between the channels (30, 30, 30, 90). The cross-section shows a concrete structure with a drainage channel. A red circle highlights a specific area. The bottom part is a plan view showing the layout of the drainage system. The plan view includes dimensions for the drainage channel (1,19) and the spacing between the channels (30, 30, 30, 90).
